1.0 POLICY OBJECTIVE

This policy confirms the Ministry of Education, National Heritage, Culture & Arts and Youth and Sports’ (herein after abbreviated to MoE) zero tolerance of abuse, neglect and exploitation of children. It also provides a framework for the protection, identification, managing and reporting incidents of child abuse in schools, religious establishments, social centres and wherever organized educational programmes are conducted so that delivery of MoE mission is realized.

MoE Mission
“...the provision of a holistic, inclusive, responsive and empowering education system that enables all children to realize their full potential, appreciate fully their inheritance, take pride in their national and cultural identity and contribute fully to sustainable national development”.

This policy translates the mission as MoE’s commitment to:

a. the well-being, safety and respect of dignity of children
b. the creation of a fun and safe learning environment for all children regardless of age, culture, ability, gender, language, racial origin, religious belief and/or sexual identity
c. taking all rational steps to protect children from harm, bias and humiliating treatment and to respect their rights wishes, sexual orientation and feelings
d. all doubts and allegations of poor performance or abuse will be dealt with in a timely and appropriate manner
e. employing officers and teachers who are qualified, registered and suitable for their responsibilities
f. engaging children and parents in making schools a safe place for children
g. assisting individual schools in developing and enforcing their own child protection policy, involving management, teachers and children.

2.0 POLICY

2.1 MoE and schools shall take all appropriate legislative, financial, administrative, social and educational measures to protect children from all types of bodily or emotional abuse, injury or cruelty, neglect or careless treatment, ill-treatment, exploitation, abuse, including sexual abuse and/or sexual exploitation, while in the care of teachers, administrative and auxiliary staff, parent(s), legal guardian(s) or any other person who has the care of children.

2.2 All schools shall develop and implement a policy for the protection of all children, the identification, reporting and management of cases of child abuse, neglect and exploitation aligned to this policy.

2.3 MoE and schools shall seek children’s inputs when formulating and developing the child protection policy in line with the United Nations Convention on the Rights of the Child (UNCRC).

2.4 The Permanent Secretary for Education, school heads and management shall provide intervention where abuse has already occurred.
2.5 It shall be mandatory for officers of the MoE and schools to be committed to child protection, to identify, manage and report incidents of child abuse, neglect or exploitation.

2.6 Recruitment procedures for all staff will include checks to ensure that no adult with a proven child abuse or exploitation background shall be employed as a teacher, school staff, and officer of the MoE or be entrusted with children.

2.7 MoE and schools shall have zero tolerance of child abuse or exploitation perpetrators including those who possess or have access to child pornography or use children to traffic contraband, sell or induce children to illicit drugs.

2.8 All schools shall elect a competent Child Protection Officer who will be the focal point for any child protection issues.

2.9 Adherence to the contents of this policy shall be monitored by the Human Resources Management Unit of MoE.

3.0 BACKGROUND

Fiji ratified the United Nations Convention on the Rights of the Child in August, 1993. As a signatory, Fiji has an obligation to protect children against:

a. All forms of physical or mental abuse (violence), neglect or negligent treatment, maltreatment or exploitation, including sexual abuse
b. Torture or other cruel, inhuman or degrading treatment or punishment

2.7 child abuse has risen rapidly in Fiji, not only in homes and on the streets but also in schools. Unfortunately, researches strongly suggest the degrading and long term effects of such abuse on the victims like; shock, fear, guilt, shame, depression and inability to trust others.

Besides, there is also the social shame attached to abuse. This intensifies and increases the traumatic experiences of the victims and it is exacerbated by the indifferent negative responses of those who should report the abuse or those to whom the report is entrusted.

At the MoE, all of its policies contain issues pertaining to child protection and enhancement of children’s future. However, this policy will directly address protection, identification, managing and reporting incidents of child abuse so that wherever the MoE conducts its business, whether in the offices, schools or other teaching/learning environments, they should all be child friendly where safety, health and care of all students is promoted.

c. Disciplinary or misconduct in which case the school will be involved

Any teacher, school staff or officers of the MoE are not child protection experts and it is not their responsibility to determine whether or not abuse has taken place. All suspicions and allegations must be subsequently reported to the MoE.

6.9.6.2 Irrespective of the findings of the police inquiries, the MoE will assess all individual cases to decide whether a member of staff or volunteer can be reinstated and how this can be sensitively handled. This may be a difficult decision; especially where there is insufficient evidence to uphold any action by the police. In such cases the MoE must reach a decision based upon the available information which could suggest that on the balance of probability, it is more likely than not that the allegation is true. The welfare of the child should remain of paramount importance throughout. However, if the circumstances are questionable, the child's personal file can be referred to.
